JANUARY – JUNE 2024

THE PERIOD IN BRIEF

JANUARY–JUNE 2024*

- Rental income increased by 5% to SEK 444 million (421) and net operating income increased by 5% to SEK 351 million (334), which corresponds to an underlying increase of 7% for the comparable portfolio.
- Income from property management amounted to SEK 165 million (164).
- Net letting during the period amounted to a total of approximately SEK -2.9 million and new lease agreements with an annual rental value of approximately SEK 46 million were signed (includes both renegotiated leases and leases with new tenants).
- Lease agreements that were renegotiated during the period led to an increase in rental values of 6% on a weighted average basis.
- Cash flow from operating activities amounted to SEK 49 million (125), corresponding to SEK 1.71 per share (4.41).
- Realized and unrealized changes in value of the property portfolio for the period amounted to SEK 47 million (-157).
- Profit for the period amounted to SEK 155 million (-1), corresponding to SEK 4.62 per share (-1.11) before dilution and 4.62 per share (-1.11) after dilution.

SIGNIFICANT EVENTS DURING THE SECOND QUARTER AND AFTER THE END OF THE QUARTER

- In May, green subordinated hybrid bonds of SEK 300 million were successfully issued under a framework of SEK 400 million. At the same time, the company submitted a repurchase offer for all previously outstanding hybrid bonds. The buyback offer was accepted for an amount of SEK 133 million.
- At the end of the quarter, and immediately after the end of the quarter, two industrial and warehouse properties were acquired in two separate transactions, in Botkyrka and in Södertälje, for an agreed property value of SEK 62 million. The total lettable area amounts to 3,235 square meters and both properties are fully let.

STATEMENT FROM THE CEO

With a strong first half of the year behind us, with positive net operating income development, both completed and newly started projects and completed acquisitions, we have increased the growth in Stendörren.

POSITIVE UNDERLYING OPERATIONAL DEVELOPMENT

Compared to the first half of last year, we report SEK 20 million higher revenues and net operating income rose by SEK 17 million, which corresponds to an underlying increase of 7% for the comparable portfolio. The vacancy rate remained at 7% for the reporting period, despite a weak economy. In addition, three new projects in the light industry segment were started during the period. The underlying operational development has thus been positive.

FOCUS ON GROWTH

In recent quarters, with interest rates that appear to have peaked and with a possible improvement in the economy in sight, the sentiment for attractive investments has improved. Further, with the lease to the Swedish Fortifications Agency at the end of 2023, a continuously adapted capital structure with a reduced proportion of expensive capital market financing, a high proportion of interest rate hedging that ensures a reasonable cost of capital and good liquidity, we have increased our focus

on growth. This is done by taking advantage of the project ideas that we have created in recent years and by taking advantage of the opportunities for attractive acquisitions that the market offers.

SEVERAL NEW PROJECTS STARTED DURING THE REPORTING PERIOD

Our project development activities continue to make good progress and during the year we have gradually increased the activity. We continuously add new project ideas, start construction, complete and let. During the reporting period, construction work has started on three new light industry projects. One relates to new production of approximately 1,200 sqm for an already contracted tenant on the Viby 19:30 property in Upplands-Bro. In GreenHub in Upplands-Bro, construction of the first building on the Nygård 2:17 property has started. A new building of approximately 2,300 sqm will be built, which marks the start of the development of the area, where there is a significant volume of additional attractive building rights. In Stockholm Syd – Almnäs with proximity to both the port of Södertälje and the

Erik Ranje, CEO

STATEMENT FROM THE CEO

E4 and the E20 highways, Stendörren has leased all three buildings totalling 16,500 sqm that were started on speculation, which now enables the start of another building of 2,300 sqm. Both the building in GreenHub and in Södertälje are being built with high sustainability ambitions, including a wooden frame. Stendörren also has several project ideas for which building permit has been obtained and preparatory works has started, especially in logistics, where we are waiting to start construction until a satisfactory occupancy rate has been achieved for each project. Having projects ideas with building permits obtained give us the opportunity to quickly start new construction, but with the opportunity to adjust these according to customer needs. All ongoing projects are located in well-established and expansive areas where there is a clear demand and where leasing work is already underway.

During the last four quarters, five projects covering a total area of 13,000 sqm have been completed, of which the majority of the area is leased. Ongoing and recently completed projects that have not yet had time to generate revenues during the reporting period are expected, following letting and completion, to be able to add SEK 70 million in net operating income. Of this amount, approximately SEK 18 million relates to recently completed or projects with completion within one year and for which lease agreements already exist, approximately SEK 30 million pertains to projects within light

industry that are being built or intended to be built on speculation, and approximately SEK 22 million pertains to projects in within logistics that require leasing before construction starts. In addition, we have an extensive portfolio of upcoming projects, which are in earlier stages.

TWO NEW ACQUISITIONS AND AN ATTRACTIVE PIPELINE OF POTENTIAL ACQUISITIONS UNDER EVALUATION

At the end of the quarter, and immediately after the end of the quarter, we acquired two industrial and warehouse properties in two separate transactions, in Botkyrka and in Södertälje, for an agreed property value of SEK 62 million. The total leasable area amounts to 3,235 square meters and both properties are fully let. Over the past two years, we have had a wait-and-see approach to acquisitions, as a result of continuously falling property values. Now, however, we see acquisitions as an important complement to organic growth. We believe that the market offers attractive acquisition opportunities and we are currently evaluating a number of exciting acquisitions.

GOOD CONDITIONS TO TAKE ADVANTAGE OF STENDÖRREN'S FULL POTENTIAL

Stendörren is a company with significant growth potential consisting of increasing rents for the company's indu-

ustrial properties in metropolitan locations, the project potential in the building rights portfolio and complementary value-creating acquisitions. But the fact is that the growth potential since I started as CEO of Stendörren just over four years ago has never been simultaneously and fully exploited. From an external perspective, the company, just like the rest of the industry, has been hampered by successive crises, where the covid pandemic that broke out a few months after I started at Stendörren was soon followed by sharply rising construction product prices, energy prices, interest rates and a weaker economy. From an internal perspective, the work with the development of project ideas during my first years at Stendörren has gained result, with completed and leased projects only in the last two years, as the lead times in project development are long, i.e. only during the period when we had reason to wait with acquisitions.

As we now begin the second half of 2024, I am convinced that we will be able to make full use of Stendörren's growth potential. With a normalized interest rate, adapted capital structure, a possible improvement in the economy, an attractive project pipeline and attractive acquisition opportunities, I therefore look forward to an exciting autumn.

Stockholm, July 19, 2024

Erik Ranje, CEO

STENDÖRREN IN BRIEF

MISSION & OBJECTIVES

Stendörren Fastigheter AB (publ) is an expansive property company listed on Nasdaq Stockholm Mid Cap. Our business concept is to create profitable growth in net asset value by managing, developing and acquiring properties and building rights within logistics, warehouse and light industry in Nordic growth regions. When commercially viable, we rezone such existing properties and thereby create residential building rights for further development and management, mainly in Greater Stockholm and the rest of the Mälardalen region.

FINANCIAL OBJECTIVES

Stendörren has four financial objectives:

- the long-term average return on equity shall amount to at least 12%
- the long-term growth in long-term net asset value shall amount to at least 15%
- the long-term interest coverage ratio shall amount to at least 2.0 times
- the long-term equity ratio shall be 35% (and never less than 20%)

PROPERTY PORTFOLIO

As at June 30, 2024, the property portfolio of Stendörren consisted of 151 properties, primarily located in the Greater Stockholm and Mälardalen region with a

market value of SEK 12,642 million. The ten largest lease agreements accounted for about 21% of the total annual rent. The company's largest lease agreement with Coop represents approximately 9 percent of the total annual rent. Coop will vacate the premises in September 2024, after which the Fortifications Agency will immediately become tenant.

The total property portfolio comprised of approximately 808,000 sqm of lettable premises, of which warehouse, logistics and light industrial properties accounted for approximately 69% of the total lettable area.

At the end of the period, Stendörren had a total of 39 properties, wholly or partly consisting of building rights. Unutilized building rights amounted to approximately 641,000 sqm and were primarily for logistics, light industrial and residential use. The market value of the building rights portfolio amounted to SEK 1,377 million (1,528) on the reporting date.

When commercially viable, the company rezones existing properties and thereby create residential building rights for further development and management, mainly in Greater Stockholm and the rest of the Mälardalen region. The development and rezoning processes, which are at different stages, may result in building rights for up to 700 new units on completion. The status of each rezoning process was considered when determining the market value of the building rights. The company's residential building rights represent approximately one third of the valuation of the entire building rights portfolio.

FINANCING

As at June 30, 2024, the Group's equity amounted to SEK 5,130 million (5,115) and the Group's interest-bearing liabilities amounted to SEK 6,735 million (6,546), corresponding to a loan-to-value ratio of 50% (49).

The average time to maturity of interest-bearing liabilities amounted to 2.7 years (2.7) and including the unhedged portion of the relevant IBOR and hedged portion via interest-rate derivatives, the average interest maturity was 2.9 years (2,1). The average interest rate on the company's total interest-bearing loans, including derivatives amounted to 3.9% on the closing date.

On the reporting date, the company had one bond of SEK 600 million with an interest rate of Stibor 90 plus 3.90% with final maturity in August 2025, one green bond of SEK 500 million with an interest rate of Stibor 90 plus 5.25% with final maturity in December 2026, one hybrid bond of SEK 380 million with an interest rate of Stibor 90 plus 6.50% with a first redemption date in September 2024 and a green hybrid bond of SEK 300 million with an interest rate of Stibor 90 plus 5.50% with a first redemption date in May 2027.

DIVIDEND

Stendörren's assessment is that the best long-term total return is generated by reinvesting the profits in the business to create further profitable growth. The company will thus continue to grow by investing in existing assets, new acquisitions and the development of new assets. Accordingly, the dividend paid will be low or zero over the next few years.

OUTCOME

The return on equity (calculated as 12 month average) amounted to -2% at the end of the period.

At the end of the period, growth in net asset value (over the last 12 months) amounted to 0%.

The interest coverage ratio amounted to 2.0 times.

The equity ratio amounted to 39% at the end of the period.

1) The stated equity ratio is calculated excluding the lease liability resulting from the application of IFRS 16. If this liability item were to be included in the calculation, the equity ratio would be negatively impacted by approximately 0.7 percentage points.

HISTORICAL PERFORMANCE

PROPERTY PORTFOLIO SUMMARY

PROPERTY PORTFOLIO

PROPERTY PORTFOLIO JUNE 30

As of June 30, 2024, the property portfolio of Stendörren consisted of 151 properties, primarily located in the Greater Stockholm and Mälardalen region, with a total market value of SEK 12,642 million. The property portfolio is reported quarterly at fair value. All properties are externally valued regularly, at least once a year. When not externally valued, each property is internally valued each quarter based on an updated analysis of actual cash flow, market rental levels, expected costs and an assessment of the market yield requirement.

At the end of the reporting period, the total property portfolio comprised of approximately 808,000 sqm of lettable area. Warehouse, logistics and light industrial premises together accounted for about 69% of the total lettable area. The office space held in the company’s portfolio (about 20% of lettable area) is mainly office space leased in combination with warehouse, logistics or light industrial properties. A distribution based on rental income would give a higher proportion of offices due to the average rent for this area type being higher than for the rest of the portfolio. The risk of large-scale vacancies and rental losses due to bankruptcies is mitigated by tenant diversification, whereby 81% of the portfolio is let to at least two tenants.

During the period, the value of the property portfolio increased by a total of SEK 76 million. The change in value consists of the acquisition of a property of SEK 19 million, divestment of a property of SEK -224 million, investments in existing properties of SEK 219 million,

currency effects of SEK 15 million and realized and unrealized changes in value totaling SEK 47 million (see table on page 17).

GEOGRAPHIC DISTRIBUTION OF PROPERTY PORTFOLIO

Stendörren puts significant effort into identifying attractive geographical industrial areas with potential in Nordic growth regions. Special focus is on developing and strengthening the company’s presence in such areas where Stendörren is already established. Approximately 61% of Stendörren’s total rental income comes from properties located in the Stockholm region. Stendörren has a large concentrated property portfolio in the Högdalen industrial area, which creates synergies both in terms of management and leasing. In Veddesta, the company has large properties, also resulting in efficient property management. Locations including Upplands-Väsby and Sollentuna along the E4 highway towards Arlanda airport, Brunna in Upplands-Bro northwest of Stockholm and Stockholm-Syd in Södertälje are areas which Stendörren intends to develop further in the years ahead. In addition to the Greater Stockholm area, the company has invested in a number of other locations in the Mälardalen region situated in attractive locations projected to benefit from major transport routes and Stockholm’s future growth. Since 2021, the company has also acquired properties in other selected Swedish and Nordic cities with growth potential, such as the Gothenburg region, Oslo, Copenhagen and Helsinki – with a continued focus on warehouse, logistics and light industrial assets.

PROPERTY PORTFOLIO SUMMARY

TENANTS AND LEASE AGREEMENTS

The tenants in the property portfolio operate in a variety of industries and range from well-established small to medium-sized companies and to large multinational businesses. As of June 30, 2024, the ten largest leases represented approximately 21% of the total annual rental income in the portfolio. The company's largest lease agreement with Coop represents approximately 9% of the total annual rent. Coop will leave these premises in September 2024, after which the Swedish Fortifications Agency will become the new tenant. Stendörren strives to sign long-term leases with its tenants and the average lease duration as of the reporting date was 4.1 years. The company also strives for a diversified maturity structure.

Combined with a range of different tenants and industries, this helps to reduce the risk of extensive vacancies and rental losses. Rental losses amounting to SEK 2.7 million were recognized throughout the reporting period.

Stendörren works proactively and continuously to renegotiate leases in line with current market rents. The economic occupancy rate for Stendörren's property portfolio was 93% at June 30, 2024, and the area weighted occupancy rate was 90%. The occupancy rate is a static measure of the rental situation on the reporting date and may vary depending on temporary relocation vacancies or projects that have commenced or been completed at different times.

In general the demand for Stendörren's assets remains strong with stable gross letting in Q2. A few larger terminations within the quarter lead to that the net letting amounted to approximately SEK -4,3 million. During the quarter, new lease agreements with an annual rental value of approximately SEK 29 million were signed. These consist of both renegotiated lease agreements and lease agreements with new tenants.

PROJECT

PROJECT PORTFOLIO

As of June 30, 2024, Stendörren had a total of 39 properties, wholly or partly consisting of building rights. Unused building rights amounted to approximately 641,000 sqm and were primarily for logistics, light industrial and residential use. Additional building rights are created and added to Stendörren's existing types of building rights by active development work and acquisitions. When commercially viable, existing properties are rezoned thereby creating residential building rights for further development and management. This takes place in areas with potential for residential use, mainly in

Greater Stockholm and the rest of the Mälardalen region.

The potential in the building rights portfolio is considered strong since the building rights are located in expansive municipalities and areas in Greater Stockholm and the Mälardalen region as well as other growth locations. The pace of new construction starts is affected by both high construction prices and potentially also lower demand resulting from a weaker economic climate. Ongoing and recently completed projects that have not yet generated revenue during the reporting period are expected, upon leasing and completion,

to add approximately SEK 70 million in net operating income. Of this amount, approximately SEK 18 million relates to recently completed or projects with completion within one year and for which lease agreements already exist, approximately SEK 30 million pertains to projects within light industry that are being built or intended to be built on speculation, and approximately SEK 22 million pertains to projects in within logistics that require leasing before construction starts. In addition, the company has an extensive portfolio of upcoming projects, which are at an earlier stage.

Photo: Almnäs

PROJECT

FUTURE PROJECTS

Stendörren’s development of building rights and project properties is primarily customer-driven. The focus is on finding existing and new tenants in need of changed or entirely new premises and satisfying that need by redeveloping existing assets or by developing entirely new assets. In order to minimize risk exposure, Stendörren strives to sign long leases with customers before the construction process is initiated. Stendörren works long term to identify new areas and properties to rezone for residential use. Residential building rights can either be created on undeveloped land, adjacent to an existing building or by converting existing buildings. Work is ongoing regarding rezoning for residential purposes in Sollentuna, Traversen 14 & 15. Further, the company is investigating the conditions for pursuing a rezoning for residential purposes in, for example, the part of Green-Hub in Upplands-Bro with a view over the lake Mälaren and in Skrubba in southern Stockholm with a view over the lake Drevviken.

1) GFA, may deviate from what is technically and commercially viable.

2) Start of first phase, projects may include several phases. Note that Stendörren aims to construct on a pre-let basis, why the timing of construction start depends on pace of leasing activities.

PROJECT

ONGOING PROJECTS

The company has several ongoing projects with a project volume in excess of SEK 25 million out of which 51,200 sqm represents new construction and extensions and 2,400 sqm represents refurbishments. During the reporting period, construction work began on three new light industrial projects. One involves new production of approximately 1,200 sqm for an already contracted tenant on the property Viby 19:30 in Upplands-Bro. In GreenHub in Upplands-Bro, construction of the first building on the property Nygård 2:17 has started. Here,

a new building of about 2,300 sqm is being constructed, marking the starting point for the development of the property, where there are also additional extensive volume of building rights. In Almnäs, Stockholm South, with proximity to both Södertälje Hamn, E4 and E20, Stendörren has leased all three buildings of a total of approximately 16,500 sqm that were started on speculation, which enables the construction start of another building of 2,300 sqm. The buildings in GreenHub and in Stockholm South are both being constructed with a wooden

frame. Stendörren has several project ideas with obtained building permits that are within the phase of planning and preparation. This gives the company the opportunity to quickly start construction of buildings adapted to customer needs. All ongoing projects are located in well-established and expansive areas where there is a clear demand and where leasing activities are in progress.

1) Note that Stendörren aims to start construction on a pre-let basis, meaning the possible completion depends on leasing activities and time for construction start.

2) GFA (new production, extension), NLA (tenant improvement, refurbishment).

3) Includes book value of land in connection with new development.

4) Building permit obtained.

PROJECT

COMPLETED PROJECTS

Five projects encompassing a total area of 13,000 sqm were completed in the past four quarters, with most of the space let. One project is a large-scale tenant improvement for a new customer at Elementet 1 in Bromma. The others concern new construction of light industrial assets.

COMPLETED PROJECTS, PAST 12 MONTHS

PROPERTY VALUATION

Each quarter, Stendörren performs a fair value assessment of the entire property portfolio. On average approximately 20–30% of the portfolio is valued by external valuation firms and the remainder is valued internally. Every property in the portfolio is externally valued at least once during a rolling twelve-month period. The valuation model used by both the external valuation firms and Stendörren is based on a discounted cash flow model, supplemented with a comparable sales method where applicable.

The valuation model and parameters are reported in accordance with the principles described in Note 11 (Investment Properties) of the 2023 Annual Report. All properties are classified at Level 3 in accordance with IFRS 13. Expenses which are value increasing are activated. All other expenses are recognized as an expense in the period in which they arise. For larger projects, interest expense is capitalized during the development period.

The combined market value of the property portfolio as of June 30, 2024 amounted to SEK 12,642 million. A summary of the valuation parameters is presented in the table on page 17. The external valuations carried out during the year were mainly performed by CBRE and Newsec Sweden.

The building rights within the property portfolio, valued at a total of SEK 1,377 million (1,354 on March 31, 2024), are valued based on a comparable sales method. The main reason for the change in value of the building rights portfolio during the quarter was value-increasing investments in, for example, early projects. For further information, refer to the section Project portfolio

summary on pages 12–15. Realized and unrealized changes in value of the entire property portfolio during the period amounted to SEK 47 million (-157).

Value changes in the property portfolio during the period were primarily driven by adjusted yield requirements and market rent assumptions, as well as changed cash flows due to new lettings, renegotiations and terminated leases. Exchange rates resulted in a positive effect on the change in value for the property portfolio during the quarter. The average yield requirement of the property valuations as of June 30, 2024 amounted to 6.3% which is flat with regards to the previous quarter (see table of valuation parameters on page 17).

FINANCING

As of June 30, 2024, the average time to maturity of interest-bearing liabilities to credit institutions amounted to 2.9 years (3.1). Including bonds, the average time to maturity amounted to 2.7 years (2.7). Stendörren uses interest-rate derivatives to hedge against a rise in the reference rate Stibor 90, through a portfolio of interest-rate caps with an average Stibor cap level of 1.6% and a total nominal value of SEK 4,850 million. Stendörren also has an interest-rate swap agreement with a nominal SEK 800 million hedged at the rate of -0.1%. The combined effect of the interest hedging gives a reference interest level of 1.4% on the interest hedged part of the interest-bearing liabilities. Stendörren also has four forward starting interest-rate swap agreements, which extends the average term of the derivative port-

folio, for more details see table on page 19. At the end of the reporting period, approximately 85% of the company's interest-bearing liabilities were interest-hedged. Including the unhedged portion of the relevant IBOR and the hedged portion via swaps and interest-rate caps, the average interest maturity of interest-bearing liabilities was 2.9 years (2.1). The average interest rate on total interest-bearing liabilities including derivatives amounted to 3.9%.

Stendörren has two senior unsecured bonds outstanding. One bond, maturing on August 18, 2025, amounts to SEK 600 million with interest of Stibor 90 plus 3.90% and the other bond, maturing on December 21, 2026, is a green bond and amounts to SEK 500 million with interest of Stibor 90 plus 5.25%.

As of June 30, there was available liquidity of SEK 813 million, in the form of cash and cash equivalents of SEK 383 million, and available credit facilities totaling SEK 430 million.

Interest and loan maturities for all interest-bearing liabilities are distributed over years according to the table below (the amounts constitute nominal amounts and exclude prepaid financing fees). Stendörren also has two hybrid bonds totaling SEK 680 million, which is recognized as equity. One bond, amounting to SEK 380 million, with an interest rate of Stibor 90 plus 6.50% has a first redemption date in September 2024. The other bond, a green hybrid bond amounting to SEK 300 million, with an interest rate of Stibor 90 plus 5.50% with a first redemption date in May 2027.

INTEREST AND LOAN MATURITIES

Interest and loan maturities for all interest-bearing liabilities are distributed over years according to the table below.

YEAR OF MATURITY	INTEREST MATURITY/YEAR ¹⁾			LOAN MATURITY	
	SEK M	INTEREST, %	SHARE, %	SEK M	SHARE, %
2024	2,164		32	36	1
2025	0		0	1,773	26
2026	2,700		40	1,125	17
2027	0		0	1,322	20
2028	0		0	2,500	37
>2028	1,900		28	9	0
Total/average	6,764	3.9	100	6,764	100

1) The interest maturity for 2024 includes all loan amounts that carry Stibor as base interest and that are not covered by interest derivatives.

SENSITIVITY ANALYSIS

CHANGE INTEREST-RATE BASE	(+) CHANGE SEK MILLION	(-) CHANGE SEK MILLION
+/-1.00%	-16	16
+/-2.00%	-32	40
+/-3.00%	-47	89

The sensitivity analysis presents the estimated effect on interest expense if the interest-rate base (primarily STIBOR 3M and NIBOR 3M) were to increase or decrease by 1, 2 or 3 percentage points.

The sensitivity analysis does not claim to be exact, rather it is only indicative and aims to present the company's assessment of amounts in the stated context.

1) Upon maturity, the derivative is replaced with a derivative (see table below) with a delayed start date at the same nominal amount.

2) Including derivatives with a delayed start date, the average maturity amounts to 3.14 years.

INTEREST-RATE DERIVATIVES – WITH DELAYED START DATE

COUNTERPARTY	TYPE	START DATE	MATURITY DATE	NOMINAL VALUE SEK MILLION	FAIR VALUE SEK MILLION	CAP LEVEL %	YEARS REMAINING
Danske Bank	Interest-rate swap	2025-10-07	2030-10-07	600	-1.6	2.45	6.27
Danske Bank	Interest-rate swap	2025-10-07	2029-10-07	300	-0.2	2.39	5.27
Swedbank	Interest-rate swap	2025-11-10	2030-11-10	400	-2.1	2.49	6.37
Swedbank	Interest-rate swap	2025-11-10	2029-11-10	600	-2.7	2.41	5.37
Total				1,900	-7	2.44	5.85

The combined effect of the interest hedging gives a reference interest level of 1.4% on the interest hedged part of the interest-bearing liabilities. At the end of the reporting period, approximately 85% of the company's interest-bearing liabilities were interest-hedged.

SUSTAINABILITY

SUSTAINABILITY FOCUSING ON FIVE AREAS

The purpose of Stendörren’s sustainability strategy is to contribute to a sustainable development of its own operations and society at large. Five focus areas have been identified where Stendörren has the greatest influence and opportunity for change and improvement regarding environmental, climate, and social aspects. The strategy has been developed through analysis and dialogue with relevant stakeholders, considering industry, market, external factors and various external requirements. **Stendörrens overall goal is to achieve net-zero carbon emissions throughout the value chain by 2040.**

OPERATIONAL EXCELLENCE

TARGET:

Suppliers to Stendörren’s operations within management and development must sign the company’s Code of Conduct.
All vehicles are to be fossil-free by 2025.
Avoid flying whenever practically possible.

RESOURCE EFFICIENCY

TARGET:

Reduce energy intensity (kwh/sqm) by at least 30% by 2030 (baseline year 2020).
70% of the property portfolio (sqm) are to have environmental certification by 2025.
100% of new developments and major refurbishments are to have environmental certification.
Enable increased recycling of tenants’ waste.
Minimize construction waste from new development <1% to landfill, by 2030.
100% fossil free energy by 2030 (purchased by Stendörren).
Reduce carbon footprint in new development by at least 40% kgCO2/sqm GFA by 2030 (baseline year 2022).

ATTRACTIVE EMPLOYER

TARGET:

Ongoing work against discrimination and annual follow-up, feedback on equality and non-discrimination.
Strive for equality and diversity among all professional categories with the goal of a 40/60 gender distribution for management executives by 2025 at the latest.
Achieve an eNPS score of at least 40 in the annual employee surveys.
All employees are to complete training in the Code of Conduct.

FUTURE PROOFING

TARGET:

Include relevant TCFD-indicators and report according to TCFD.
Net-zero carbon emissions target validated by the Science Based Targets initiative (SBTi).

SOCIAL RESPONSIBILITY

TARGET:

Create job opportunities for people standing far from the labour force.

1,175 kWp

Total capacity of installed solar energy as of June 30, 2024 (inc. ongoing installations)

63.7%

Environmentally certified area out of total area as of June 30, 2024

Target of 70% certified area by 2025

-25.8%

Reduction of energy intensity (kWh/sqm) as of June 30, 2024, compared with base year 2020

Target of at least 30% reduction from base year 2020 to 2030

SUSTAINABILITY

STENDÖRREN SUPPORTS THE UN SDGS

Stendörren’s largest climate impact comes from the development and management of the company’s property portfolio. It is crucial for the company to focus on resource efficiency throughout the value chain in terms of management, renovation and new construction, including selection of building materials and energy sources, to reduce climate impact. Stendörren strives for creating conditions for a safe and healthy work environment for both Stendörren’s employees, tenants and suppliers. The company’s routines and processes ensure that the company acts responsibly with controlled risk and in line with expectations and regulatory guidelines and requirements.

SUSTAINABLE DEVELOPMENT GOALS

The sustainability strategy is based on the UN Sustainable Development Goals (SDGs) for 2030. Stendörren supports the SDGs and has identified nine goals, where the company has a direct impact, which are the following no, 3, 5, 7, 8, 10, 11, 12, 13 and 15.

GROUP SUMMARY

COMMENTS TO THE CONSOLIDATED INCOME STATEMENT

RESULT

Compared to the corresponding period in 2023, Sten-dörren reported an increase of approximately SEK 20 million in income and of approximately SEK 17 million in net operating income for January–June 2024, which corresponds to an underlying increase of 7% for the comparable portfolio. After deduction of financing costs and central administration costs, income from property management totaled SEK 165 million (164). Profit for the period amounted to SEK 155 million (-1), corresponding to SEK 4.62 per share (-1.11).

RENTAL INCOME

Rental income increased by approximately 5% to SEK 444 million (421) compared with the corresponding period 2023. The increased income was driven by higher rents in the existing portfolio and from completed and leased projects. In the comparable portfolio the increase was approximately 7%. The slightly higher increase in the comparable portfolio is due to the sale of the property Varvet 1 in Q1 2024. In addition to rental income, the company also reports other income of approximately SEK 8 million that mainly refers to non-recurring income and an insurance payment during the first quarter 2024.

PROPERTY EXPENSES

Recognized property expenses increased by approximately SEK 4 million to SEK 101 million (97). Total property expenses in the comparable portfolio increased by approximately SEK 6 million, which corresponds to about 6%. The main reason for the increase in expenses was higher costs for district heating and water & sewage compared to the corresponding period in 2023, which is due to higher tariffs. Slightly higher costs for maintenance resulting from, for example, water damage caused by snow and higher insurance premiums in the first quarter 2024.

CENTRAL ADMINISTRATION

Costs for central administration for the period amounted to SEK 45 million (41) and comprised of costs for central administration, company management, Board and auditors.

NET FINANCIAL ITEMS

Financial income amounted to SEK 76 million (39) and is primarily derived from income attributable to interest-rate derivatives. Financial expenses, excluding lease expenses, rose to SEK -221 million (-180), mainly due to higher lending and rising interest levels. Lease expenses (pertaining to IFRS 16 Leases) amounted to SEK -5 million (-4). The expense mainly comprised ground rent and rent.

INCOME FROM PROPERTY MANAGEMENT

Income from property management amounted to SEK 165 million (164) during the reporting period, mainly due to higher income.

CHANGES IN VALUE

The company reported realized and unrealized changes in value of the property portfolio of SEK 47 million (-157). Value changes in the property portfolio during the period were primarily driven by adjusted yield requirements and market rent assumptions as well as changed cash flows due to, for example, new leases, renegotiated but also terminated agreements. Exchange rates had a positive value change on the property portfolio during the period, for details see page 17. The market valuation of the interest-rate derivatives resulted in a change in value of SEK -33 million (-1) as per the reporting date.

TAX

The tax expense in profit or loss consists of current tax of SEK -18 million (-1) and deferred tax of SEK -5 million (-7).

GROUP SUMMARY

FINANCIAL POSITION

NON-CURRENT ASSETS

Stendörren's non-current assets mainly consist of investment properties. As of June 30, 2024, the value of the total property portfolio amounted to SEK 12,642 million (12,513). For analysis and comments, see page 9–10.

CURRENT ASSETS

Current assets amounted to SEK 484 million (235) on the closing date, consisting of cash and cash equivalents of SEK 383 million (143) and rental receivables and other current receivables of SEK 100 million (92). Available liquidity, in the form of cash and cash equivalents of SEK 383 million and available credit facilities totaling SEK 430 million, thus amounted to SEK 813 million at the end of the period.

EQUITY

As of June 30, 2024, the Group's equity amounted to SEK 5,130 million (5,115) and the equity ratio to 39% (39).

INTEREST-BEARING LIABILITIES

The carrying amount of the Group's interest-bearing liabilities at the end of the reporting period amounted to SEK 6,735 million (6,546) corresponding to a loan-to-value ratio of 50% (49). The liabilities consisted of loans from credit institutions of SEK 5,664 million (5,268), two bonds totaling SEK 1,100 million (1,300).

Loan arrangement costs of SEK -29 million (-27) were allocated in accordance with the company's accounting policies. The short-term portion of the interest-bearing liabilities amounted to SEK 1,233 million (1,123) and consisted of loans and repayments that are due within the next 12 months.

INTEREST AND LOAN MATURITIES

Stendörren aims to reduce interest and refinancing risks in its operations by spreading the maturity structure for interest rates and loan maturities over several years. Interest-rate risks are managed mainly through interest-rate derivatives. For a more detailed description of the interest and loan maturity portfolio, see page 18.

DEFERRED TAX LIABILITIES (NET)

Deferred tax liabilities amounted to SEK 1,005 million (1,009) on June 30, and related to the tax on properties, derivatives, untaxed reserves and unutilized losses carried forward.

OTHER CURRENT LIABILITIES

In addition to the short-term portion of interest-bearing liabilities, current liabilities include accounts payable, accrued expenses and deferred income, tax liabilities and other current liabilities, amounting to a total of SEK 313 million (306).

SHARE CAPITAL AND OWNERSHIP

SHARE CAPITAL AND OWNERSHIP

SHARE CAPITAL

The share capital in Stendörren amounts to SEK 17,056,959, split between 2,500,000 Class A shares and 25,928,265 Class B shares. Each share has a quotient value of SEK 0.60. Class A shares in Stendörren carry entitlement to ten votes at a general meeting and Class B shares carry entitlement to one vote at a general meeting. Class A shares can be converted to Class B shares at a ratio of 1:1. All shares carry the same right to shares in the company's assets and profits. According to the Articles of Association, the company also has the option of issuing preference shares

AUTHORIZATIONS

On May 23, 2024, the Annual General Meeting resolved to authorize the Board of Directors to, up until the next Annual General Meeting, with or without deviation from the shareholders' preferential rights, with cash payment or payment through set-off or through capital contributed in kind, or otherwise with certain conditions, resolve to issue shares of Class A or B, convertibles for shares of Class A or B or warrants for shares of Class A or B, as well as preference shares. However, an issue without preferential rights for the shareholders may not result in an increase of the company's shares of more than a total of 20% calculated at the date for the 2024 Annual General Meeting. If the Board of Directors resolves on

an issue without preferential rights for shareholders, the reason must be to broaden the ownership base, acquire or facilitate the acquisition of working capital, increase the liquidity of the share, carry out company acquisitions or acquire or facilitate the acquisition of capital for company acquisitions. An issue without preferential rights for shareholders must be conducted on market terms.

INCENTIVE PROGRAMS

Stendörren have two incentive programs that were resolved on at the Extraordinary General Meeting in September 2020 and the 2023 Annual General Meeting, respectively. Both programs were targeted toward the company's employees and include issues of warrants, which the participants in the relevant program acquired for cash payment to the Parent Company. The warrants were acquired at market value calculated in accordance with the Black & Scholes valuation method performed by independent valuers.

Under the incentive program 2020-2025, there were by the end of the period 252,250 warrants and each warrant entitles the holder, during a period of two weeks from the date of publication of the interim financial report for the period January 1-September 30, 2025, to subscribe for one new Class B common share in the company at a subscription price of SEK 175 per share.

Under the incentive program 2023 - 2028, there were by the end of the period 50,060 warrants and each warrant entitles the holder, during a period of two weeks from the date of publication of the interim financial report for the period January 1-March 31, 2028, to subscribe for one new Class B common share in the company at a subscription price of SEK 285 per share.

Upon full exercise of the warrants in the two outstanding programs, the share capital will increase by SEK 181,386 through the issuance of 302,310 Class B shares, each with a quotient value of SEK 0.6. The dilution effect at full utilization corresponds to approximately 1.1% of the capital and 0.6% of the number of votes based on the number of outstanding shares as of the reporting date.

STOCK EXCHANGE

The Stendörren Class B share is traded on Nasdaq Stockholm Mid Cap. The company's ticker is STEF B. The company's ISIN is SE0006543344. A trading unit corresponds to one (1) share.

OTHER INFORMATION

RELATED PARTY TRANSACTIONS

During the period, the company carried out a transaction with a senior executive for the lease of two garage spaces. All transactions with related parties are conducted on market terms. Other than what is stated above, the company is not and has not been party to any business transaction, loan, guarantee or guarantee connection with any of the Board members, senior executives, major shareholders or related parties to any of these in 2024.

RISKS

Risks and uncertainties are primarily related to changes in macroeconomic factors affecting demand for premises and the price of capital. Stendörren is also exposed to the risk of unforeseen increases in operating expenses or maintenance costs, which cannot fully be compensated for in leases with tenants. There is also a risk that the company's lenders do not extend credit facilities at maturity. Real estate transactions are a part of the company's business model and are, by their nature, associated with uncertainties and risks. More information about these risks can be found on pages 81–84 in the company's Annual Report for the 2023 fiscal year. In addition to the risks that are outlined in the Annual Report, the risks related to the uncertain macroeconomic climate have been described in greater detail in this report, for example, in the Statement from the CEO on pages 4–5 and the sensitivity analysis for changes in interest rates on page 18.

ACCOUNTING POLICIES

This interim report has been prepared in accordance with IAS 34 Interim Financial Reporting and the Swedish Annual Accounts Act. The same accounting policies, valuation principles and calculation methods were applied as in the most recently published financial information, see Note 1 of the 2023 Annual Report. Investment properties are measured at Level 3 of the fair value hierarchy according to IFRS 13. Derivatives are measured at fair value in the consolidated financial statements and at Level 2 in accordance with IFRS 13. The Parent Company applies the Annual Accounts Act and RFR 2 Accounting for Legal Entities.

AUDITOR'S REVIEW

This interim financial report has not been reviewed by the company's auditors.

This information is such that Stendörren Fastigheter AB is required to publish according to the EU Market Abuse Regulation and the Swedish Securities Market Act. The information was provided, through the agency of the contact person below, for publication on July 19, 2024 at 7:00 am CEST.

APPENDIX 1

ASSESSED EARNINGS CAPACITY¹

According to the company's assessment, the total annual rental income (after deductions for vacancies and discounts) amounts to approximately SEK 883 million on July 1, 2024. The company also assesses that current property expenses amount to approximately SEK 187 million. Accordingly, the Group is expected to generate annual net operating income of approximately SEK 696 million.

Costs for central administration is assessed to approximately SEK 81 million, net financial items to approximately SEK 270 million and leasing costs to approximately SEK 10 million. This totals annual income from property management of approximately SEK 335 million on July 1, 2024.

This information is only the company's own assessment of the earnings capacity as of July 1, 2024, without taking into account new letting, vacancies or index-related rent changes that have not yet had an effect or other, implemented measures that have not yet had effect on income from property management.

Costs for central administration were based on actual outcome for the past 12 months and net financial items were calculated based on interest-bearing liabilities and assets on the closing date. Costs for interest-bearing

liabilities were based on the Group's reported average interest rate on the closing date plus allocated financing costs and costs for unutilized credit facilities on the closing date. Leasing costs essentially refer to ground rent, based on actual outcome for the past 12 months adjusted for the holding period.

Any additional acquisitions or sales announced by the company, but which have not yet been entered into or resigned, are also not included.

The earnings capacity also does not take into account ongoing and recently completed projects that have not yet generated revenue during the reporting period are expected, at the rate of leasing and completion, to be able to add approximately SEK 70 million in net operating income. Of this amount, approximately SEK 18 million relates to recently completed or projects with completion within one year and for which lease agreements already exist, approximately SEK 30 million pertains to projects within light industry that are being built or intended to be built on speculation, and approximately SEK 22 million pertains to projects in within logistics that require leasing before construction starts.

These data should therefore not be seen as a forecast of future profit development for Stendörren.

ASSESSED EARNINGS CAPACITY ¹	
Rental income	883
Total income	883
Operating expenses	-134
Maintenance costs	-27
Property tax	-27
Net operating income	696
Central administration	-81
Financial income and expenses	-270
Lease expenses/Ground rent	-10
Income from property management	335

¹⁾ This is the Company's best assessment of current earnings capacity on an annual basis as of July 1, 2024 and not a forecast of future expected earnings.

ALTERNATIVE PERFORMANCE MEASURES

DEFINITIONS

The European Securities and Markets Authority (ESMA) has issued guidelines for the use of Alternative Performance Measures, (APMs) related to companies with securities that are listed on a regulated market. The guidelines have been developed in order to increase the transparency and the comparability in APMs commonly used in prospectuses and other compulsory information submitted by listed companies. Stendörren provides more detailed definitions and explanations of the APMs it uses. These definitions and explanations, along with a reconciliation table, are in accordance with the ESMA guidelines and can be found on www.stendorren.se, investor relations.

CURRENT NET ASSET VALUE

Book equity net of hybrid capital adjusted for actual deferred tax liability, calculated at an effective tax rate of 5.9% and adjusted for interest-rate derivatives.

AREA WEIGHTED OCCUPANCY RATE

Area contractually leased to tenants in relation to total lettable area.

AVERAGE RETURN ON EQUITY

Profit for the period in relation to average equity the last 12 months.

LOAN-TO-VALUE RATIO

Interest-bearing liabilities in relation to total assets.

LOAN-TO-VALUE RATIO AT PROPERTY LEVEL

Interest-bearing liabilities secured in properties in relation to the fair value of the properties.

NOI YIELD

Property NOI the last 12 months in relation to the fair value of the properties.

NET OPERATING INCOME

Total rental income from the properties reduced by property operating expenses.

ECONOMIC OCCUPANCY RATE

Contractual annual rent in relation to rental value, excluding properties not lettable at the end of the period due to demolition and/or major project development.

INCOME FROM PROPERTY MANAGEMENT

Profit for the period before value changes and tax.

NET FINANCIAL ITEMS

Net financial items are the difference between interest income and interest expenses as well as leasing costs.

AVERAGE INTEREST RATE

The weighted average interest rate on all interest-bearing liabilities.

WEIGHTED AVERAGE UNEXPIRED LEASE TERM

The weighted average remaining lease term on all existing property leases. Expressed in terms of years remaining until expiry.

LOAN MATURITY

The weighted average remaining time to maturity for interest-bearing liabilities, expressed in years.

CASH FLOW PER SHARE

Cash flow from operating activities before changes in working capital according to the cash flow statement divided by the average number of shares outstanding before dilution.

LONG-TERM NET ASSET VALUE

Book equity net of hybrid capital adjusted for deferred tax and the derivatives value (+/-).

NAV GROWTH

Percentage change in the long-term net asset value the last 12 months.

NET LETTING

Annual rent for new signed leases reduced by annual rent for terminations and annual rent for bankruptcies.

EARNINGS PER SHARE

Net profit after hybrid interest divided by the average number of shares outstanding, before and after dilution.

AVERAGE INTEREST MATURITY INCLUDING DERIVATIVES

The weighted average remaining time to interest adjustment on interest-bearing liabilities including the effect of interest derivatives. Expressed in years remaining.

ICR

Income from property management the last 12 months adding back net financial expenses, in relation to net financial expenses (excluding the rights of use of land lease properties that in accordance with IFRS 16 is accounted for as a financial cost).

EQUITY RATIO

Book equity in relation to total balance sheet (excluding the leasing liability for the rights of use of land lease properties that, in accordance with IFRS 16, is accounted for as a long term liability).

TOTAL RETURN

Property NOI increased by change in value of investment properties during the last 12 months divided by the average fair value of the properties during the same period.

SURPLUS RATIO

Properties' NOI divided by total income during the same period.

Stendörren Fastigheter AB (publ) is an expansive property company listed on Nasdaq Stockholm Mid Cap. Our business concept is to create profitable growth in net asset value by managing, developing and acquiring properties and building rights within logistics, warehouse and light industry in Nordic growth regions. When commercially viable, we rezone such existing properties and thereby create residential building rights for further development and management, mainly in Greater Stockholm and the rest of the Mälardalen region.
